Funeral & Memorial Videography

What is a Memorial Video?

It is a special video focusing on the life of the deceased and is often shown prior to or during a funeral or memorial service. It is created using photos and music and put on a DVD with a custom artwork case cover..

A Memorial Video is much more than a slide show, it is a unique way to focus on the life of the deceased. Each video is highly personalized and is 5-7 minutes in length on average and presented with movement in the photos that is carefully timed to music.

The photos that you provide will be scanned and restored to look their best.

How do you get started?

- Provide me with up to 50 still images (more photos than that are \$1.00 each). There is no limit, tho more photos may require more music.
- Please sequentially number the pictures on the back in the order that you would like them to be displayed.
- If the photos are in digital files please provide me the highest quality original version of the image on a CD or a Flash Drive.
- If you would like to choose the music used please provide me with Two songs on CD or Flash Drive. Or let me know the names of the songs/artists or a link to them on YouTube and I will obtain the songs.
- If you are uncertain of the music I will make appropriate selections from the music I like to use for these.

Please Print

Name of Deceased _____

Date of Birth _____ Date of Death _____

Contact Person _____ Contact Phone _____

Contact Email _____

Funeral Home & Director _____

Need Video Delivered by (date and time) _____

Music Instructions _____

Other Comments _____

Number of Additional DVD Copies _____

Memorial Videos - \$125.00

Includes up to 50 pictures and two songs.

Additional pictures are \$1.00 each

Additional DVD copies are \$12.50 each

Funeral Services \$400.00

In addition we can also record the memorial service itself to capture the celebration and and what people have to say about your loved one.

This is beneficial for someone who was unable to attend the service. We use two cameras to record and place microphones to clearly capture audio for the service.

Contact Us ASAP for Availability.
